

## PT Sahabat Mewah dan Makmur PENDAKI Report

PT Sahabat Mewah dan Makmur plays an important role in protecting Tarsiers (*Cephalopachus bancanus* spp saltator), the world's smallest primate. The Balok forest, which provides a habitat for a population of Tarsiers and several other animal species, has been set aside as a conservation area and managed together with the local community. We also reforested degraded areas as a part of the company's commitment to maintaining environmental sustainability.
